

Technovation Nagaland 2023
‘State Level Workshop cum Technology Innovators Meet’
14 March, 2023.

The Sustainable Development Goal Coordination Centre (SDGCC), Department of Planning & Transformation, in collaboration with Atal Innovation Incubation (AIC) SELCO Foundation, organized the ‘Stakeholders Meet on Identification & Mobilization of Innovators in Nagaland’ in August 2022 and the ‘Technovation – Innovators Meet in Nagaland’ in March 2023, both held in Kohima. These events aimed to identify and onboard technology innovators into the AIC SELCO Incubation Programme, which includes a 6-month pre-incubation phase followed by 18 months of end-to-end support, including financial assistance. Four innovators from Nagaland have been onboarded through this initiative.

This collaborative effort by SDGCC and AIC-SELCO Foundation seeks to nurture these innovators into successful enterprises while fostering an ecosystem for future generations with the passion and knowledge to thrive as entrepreneurs through innovation,
