

District Level Consultations for Formulating the SDG District Roadmaps August 1 to September 5, 2023

In another significant move towards localizing the Sustainable Development Goals (SDGs) at the district level, the SDG Coordination Centre (SDGCC) of the Planning & Transformation Department, Government of Nagaland, organized a series of District-level Consultations to develop SDG District Roadmaps. These consultations were held across twelve districts, covering all sixteen districts of the state, in two phases. The first phase, conducted from 1st to 21st August 2023, covered ten districts, while the second phase, from 29th August to 5th September 2023, covered six districts. Approximately 350 district Heads of Offices, department officials, and administrative officers participated in these consultations, which were designed to engage district-level officials from implementing departments in formulating localized roadmaps to achieve the Nagaland SDG Vision 2030.

The consultations were chaired by the District Planning Officer, with keynote addresses delivered by the Deputy Commissioner/District Administration of the respective districts. The technical sessions were facilitated by members of the SDGCC team. The first technical session featured a PowerPoint presentation providing an overview of the SDGs, Nagaland Vision 2030, the District Roadmap, the Monitoring Framework, and district performance on SDG indicators. The second technical session involved one-on-one consultations with individual departments, fostering dialogue, knowledge sharing, idea generation, and a deeper understanding of the framework for formulating the Roadmap.

Glimpses from the district-level consultations from different districts:
